SUMMARY

Front-End Developer specializing in JavaScript (ES6+), TypeScript, React 18+, and Vue.js 3. Experienced in building over 30 projects with a focus on clean code, accessibility (A11y/WCAG), responsive interfaces, and high performance (Google PageSpeed 90+). Experienced in REST API integration and modern frontend architecture approaches (Feature-Sliced Design, Atomic Design). Former entrepreneur with 12 years of experience, bringing strong problem-solving skills, exceptional attention to detail, and a structured, product-oriented approach to development.

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frameworks & State Management: React, Vue.js 3, React Router, Vue Router 4, Pinia

HTML, CSS & UI: HTML5, CSS3, PostHTML, SCSS/SASS, PostCSS, CSS Modules, Tailwind CSS, BEM, CSS Animation, GSAP, Ant Design, Material UI, Chart.js, Responsive & Adaptive Design, Pixel Perfect

Architecture & API: Feature-Sliced Design (FSD), Atomic Design, REST API, Axios, Object-Oriented Programming (OOP)

Build & Workflow: Vite, Webpack, Gulp, Git (GitHub, GitLab), GitHub Actions, ESLint, StyleLint, Husky

Optimization & SEO: Lighthouse, Google PageSpeed, Accessibility (A11y), SEO

Design & Deployment: Figma, Adobe Photoshop, Avocode, Vercel, Netlify, GitHub Pages

LANGUAGES

English: Pre-Intermediate | Ukrainian: Native | Russian: Native

WORK EXPERIENCE

Junior Front End Developer | Freelance (09/2023 – 03/2026)

Built and maintained frontend applications using JavaScript, React, Vue.js 3, and TypeScript. Converted design mockups from Figma into responsive, pixel-perfect interfaces, ensuring cross-browser compatibility and optimized performance. Integrated REST APIs and applied Feature-Sliced Design (FSD) and Atomic Design principles for scalable architecture.

View my projects in my portfolio: https://ivan-mr1.github.io/Ivan_Fomin/dist/

Last Projects:

E-commerce Eyewear Store (01/2026 – Present)

- Developed scalable frontend architecture using JavaScript and PostHTML; integrated REST API for data synchronization.
- Implemented LocalStorage for persistent wishlist and shopping cart.
- Currently refactoring the application to Next.js to improve SEO and rendering performance.
- Tech: HTML, PostHTML, SCSS, JavaScript, REST API, Git, Chrome DevTools.

Smartphone E-commerce Store (01/2026)

- Built a dynamic e-commerce frontend using Vue.js and Tailwind CSS, managing product data via REST API.
- Added LocalStorage functionality for favorites and cart persistence.
- Tech: Vue.js, JavaScript, Tailwind CSS, REST API, Git, Vercel.

Louvre Museum Landing Page (11/2025 – 01/2026)

- Developed a multi-section interactive landing page featuring sliders and ticket purchase functionality.
- Implemented custom UI components (DatePicker, Checkboxes) and used Vite for optimized build processes.
- Tech: HTML, SCSS, Swiper, Vite, JavaScript, Git.

React To Do Application (01/2026 – 02/2026)

- Developed a task management app with React, applying Feature-Sliced Design (FSD) for modular architecture.
- Implemented LocalStorage persistence for task data and styled using CSS Modules.
- Tech: React, CSS Modules, Feature-Sliced Design (FSD), Git, Vite.

Self-employed | Custom Cabinet Furniture Production | (01/2010 – 01/2022)

Managed the full project lifecycle, from initial client consultation to final installation and quality control. Designed and developed custom furniture solutions, preparing technical specifications and project documentation. Coordinated production processes to ensure precision and high-quality results for complex custom projects. Communicated with clients, conducted negotiations, and resolved issues while focusing on tailored solutions and customer satisfaction. Strong problem-solving and verbal communication skills.

EDUCATION AND SERTIFICATIONS

- **Bachelor of Economics**. Donetsk University of Economics and Law. Faculty of Economics and Entrepreneurship (2005 – 2009)
- **React Native** | ITVDN (2026)
- **Vue.js** | ITVDN (2026)
- **TypeScript** | ITVDN (2026)
- **React Essential** | ITVDN (2025)
- **Git Basics** | ITVDN (2025)
- **JavaScript Starter** | ITVDN (2025)
- **JS / Front-End Course** | RS School (2025)
- **Complete Course on JavaScript + React** | Udemy (2024)
- **Web Developer** | Udemy (2023)
