SUMMARY

Front-End Developer specializing in JavaScript (ES6+), TypeScript, React 18+, and Vue.js 3. Experienced in building over 40+ projects with a focus on clean code, accessibility (A11y/WCAG), responsive interfaces, and high performance (Google PageSpeed 90+). Experienced in REST API integration and modern frontend architecture approaches (Feature-Sliced Design, Atomic Design). Former entrepreneur with 12 years of experience, bringing strong problem-solving skills, exceptional attention to detail, and a structured, product-oriented approach to development.

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frameworks & State Management: React, React Router, Vue.js 3, Vue Router 4, Pinia

HTML, CSS & UI: HTML5, CSS3, PostHTML, SCSS/SASS, PostCSS, CSS Modules, Tailwind CSS, BEM, CSS Animation, GSAP, Ant Design, Material UI, Chart.js, Responsive & Adaptive Design, Pixel Perfect

Architecture & API: Feature-Sliced Design (FSD), Atomic Design, REST API, Axios, Object-Oriented Programming (OOP)

Build & Workflow: Vite, Webpack, Gulp, Git (GitHub, GitLab), GitHub Actions, ESLint, StyleLint, Husky

Optimization & SEO: Lighthouse, Google PageSpeed, Accessibility (A11y), SEO

Design & Deployment: Figma, Adobe Photoshop, Avocode, Vercel, Netlify, GitHub Pages

LANGUAGES

English: Pre-Intermediate | Ukrainian: Native | Russian: Native

WORK EXPERIENCE

Junior Front End Developer | Freelance (09/2023 – 03/2026)

Built and maintained frontend applications using JavaScript, React, Vue.js 3, and TypeScript. Converted design mockups from Figma into responsive, pixel-perfect interfaces, ensuring cross-browser compatibility and optimized performance. Integrated REST APIs and applied Feature-Sliced Design (FSD) and Atomic Design principles for scalable architecture.

Last Projects:

E-commerce Eyewear Store (01/2026 – Present)

- Developed scalable frontend architecture using JavaScript and PostHTML; integrated REST API for data synchronization.
- Implemented LocalStorage for persistent wishlist and shopping cart.
- Currently refactoring the application to Next.js to improve SEO and rendering performance.
- Tech: HTML, PostHTML, SCSS, JavaScript, REST API, Git, Chrome DevTools.

Smartphone E-commerce Store (01/2026)

- Built a dynamic e-commerce frontend using Vue.js and Tailwind CSS, managing product data via REST API.
- Added LocalStorage functionality for favorites and cart persistence.
- Tech: Vue.js, JavaScript, Tailwind CSS, REST API, Git, Vercel.

Louvre Museum Landing Page (11/2025 – 01/2026)

- Developed a multi-section interactive landing page featuring sliders and ticket purchase functionality.
- Implemented custom UI components (DatePicker, Checkboxes) and used Vite for optimized build processes.
- Tech: HTML, SCSS, Swiper, Vite, JavaScript, Git.

React To Do Application (01/2026 – 02/2026)

- Developed a task management app with React, applying Feature-Sliced Design (FSD) for modular architecture.
- Implemented LocalStorage persistence for task data and styled using CSS Modules.
- Tech: React, CSS Modules, Feature-Sliced Design (FSD), Git, Vite.

EDUCATION AND SERTIFICATIONS

- **Bachelor of Economics**. Donetsk University of Economics and Law. Faculty of Economics and Entrepreneurship (2005 – 2009)
- **React Native** | ITVDN (2026)
- **Vue.js** | ITVDN (2026)
- **TypeScript** | ITVDN (2026)
- **React Essential** | ITVDN (2025)
- **Git Basics** | ITVDN (2025)
- **JavaScript Starter** | ITVDN (2025)
- **JS / Front-End Course** | RS School (2025)
- **Complete Course on JavaScript + React** | Udemy (2024)
- **Web Developer** | Udemy (2023)
